

# CASE

Create a road map towards development of tender specifications for an EPC company to quote the HE WtE plant

## Please include

- How to break down the plant into logical pieces of equipment, explain why
- How to ensure the EPC company will construct the plant, compliant to the Proposal's expectations
- Who to involve; (type of) stakeholders, companies and 3<sup>rd</sup> parties. Explain when and why
- Provide steps & timelines
- If any: indicate key risks or whatever you feel is key to deliver the project successfully

## Instructions for preparation

- The audience will be an English speaking, nontechnical audience
- Assess the information provided
- If needed, you are allowed to pose (a maximum of 5) questions for your preparation. Please send them to [s.agma@harvestwaste.com](mailto:s.agma@harvestwaste.com)
- Prepare a maximum of 10 slides for your presentation

# INFORMATION PACKAGE

## List of documents for preparation

1. Harvest waste project intro to Jenin
2. Harvest Waste Technical Proposal for Jenin
  - Appendix A - reference plant
  - Appendix C - Layout
3. Harvest Waste development planning
